

Save up to \$800 on dental and vision expenses this year!

Participating in a limited-purpose flexible spending account (FSA) is like receiving a 30% discount from your dental and vision providers.

How does a limited-purpose FSA work?

A limited-purpose FSA is a flexible spending account that allows you to set aside pre-tax dollars for dental and vision expenses for you and your dependents, even if they are not covered under your primary health plan. You are eligible to open a limited-purpose FSA if you are enrolled in a health savings account (HSA).

You choose an annual election amount, up to \$2,750. At the beginning of the plan year, your account is pre-funded and your full contribution is immediately available for use. Your election amount is then deducted from your paychecks in equal installments throughout the year.

Why should I enroll in a limited-purpose FSA?

Almost everyone has some level of predictable and non-reimbursable dental and vision needs.

If you are enrolled in an HSA and expect to incur dental and vision expenses this year, you'll want to take advantage of the savings this plan offers. By using your limited-purpose FSA, you will be able to preserve your HSA funds for other purposes, including saving for the future. And just like an HSA, money contributed to a limited-purpose FSA is free from federal and state taxes and remains tax-free when it is spent on eligible expenses. On average, participants enjoy a 30% tax savings on their annual contribution. This means you could be saving up to \$800 per year on dental and vision expenses!

How do I use my limited-purpose FSA to pay for dental and vision expenses?

You can use your ABG Benefits Card to pay your providers for eligible dental and vision expenses, or pay with your personal funds and submit a claim for reimbursement.
